## The Police Society for Problem Based Learning 2014 Annual Conference Details and Information Sheet

### Conference Theme and Objectives:

#### ***Planning for Problems: Innovative Strategies for Police Agencies***

PSPBL recognizes times are tough for law enforcement and adult educators. Agencies, senior executives, colleges, and trainers are challenged to do more with less, become more effective and efficient, and solve real world problems creatively. The focus of our conference will center on Problem Based Learning facilitation skills which emphasize creative problem solving, teaching Community Oriented Policing strategies, the Police Training Officer Program and other strategies for handling the complex problems we face. Our conference is not limited to law enforcement personnel or law enforcement educators – if you have an interest in the Problem Based Learning methodology you are welcome to attend and to learn! Please refer to the Annual Conference page on our website for more information and Calls for Proposals.
