Training plan

April 30, 2018

Development of Training in Three Phases

ENPQ is at work! Together with the ministère de la Sécurité publique and the police community (municipal police, First Nation police and Sûreté du Québec), ENPQ has developed a training plan that will be deployed over a five-year period. This plan derives from a needs analysis and is detailed below.

Seven training initiatives will take place in three phases. This is a living plan that will be adapted as the legal and operational frameworks become clearer. An entire team is dedicated to the development of these training courses and can be contacted at: cannabis@enpq.qc.ca

At the same time, ENPQ is also updating all its initial and advanced training courses affected by these significant legislative changes.

Phase 1: Legal Framework Changes + Training on Impaired Driving Investigation (Powers and Duties)

| Training | Content | Scheduled Start of Training | Planned Duration | Delivery Method |
|--|--|-----------------------------|------------------|---|
| 1.1 C-45 Legal Framework (+ Bill 157) | “Introduction to cannabis” In collaboration with RCMP and CPKN | August 2018 | 1-2 hours | Online (10-15 min. blocks) |
| 1.2 C-46 Legal Framework (+ Bill 157) | Amendment relating to the powers and duties with respect to impaired driving | October 2018 | ½ day | At ENPQ and in police organizations (off-campus and decentralized) |
